WHEN ENERGY EFFICIENT MATTERS...

Look for this logo for fans that carry Emerson's Most Energy Efficient Motor - The EcoMotor®

EcoMOTOR

HERE'S HOW...

EcoMotor Fans:

- Are up to 3 times more efficient than typical ceiling fan motors - cost less than 1¢ per hour to run.
- Use a maximum of 33 watts of energy.
- Drive a higher degree blade pitch more efficiently.
- Come with built-in electronics with 6-speed control.

- EcoMotor fans which are also part of our Blade Select Series are adaptable to 42/44", 52/54", 58/60" or 70/72" fan diameter without adding noise, allowing versatility & quiet operation

Emerson EcoMotor®

Maui Bay CF2000

The Maui Bay ceiling fan houses the Emerson K55XL motor and adapts to several different natural-blade options. From a true natural leaf blade, to hand-woven wicker blades to a dramatic 80" span with the use of our Bent Wood Blade, this premium fan design allows for interior versatility.

Features:

- 52" blade span
- Light fixture adaptable
- 6" downrod included
- 4 or 5 blade assembly option
